

CURRICULUM VITAE

Alain DUGUET

born 5 September 1956

French - married, 2 children

private address: 73 avenue du Maréchal Joffre, 93360 Neuilly Plaisance, France

(phone + 33 1 43 00 01 98, mobile + 33 6 25 93 35 29 – e-mail: alain.duquet@club-internet.fr)

EDUCATION

- 1981 **Ph. D.** (Doctorat 3^e cycle) in **Analytical Chemistry**, Ecole de Chimie de Strasbourg
Title: "Application of HPLC to the determination of traces of metallic compounds"
- 1979 **Pharmacist** Degree (option Industry), Faculté de Pharmacie de Strasbourg (France)

Languages

- French : mother tongue
- English : fluent (TOEIC mark 950) – several stays in US and UK
- German : fluent – 3-month stay in Frankfurt, Hoechst AG (1995)

PROFESSIONAL EXPERIENCE

Experience in **Analytical Development** and **Management**:

- participating in the international development of new molecules (NCEs) up to Registration
- re-vamping and filing Dossiers for mature products
- putting in place new analytical techniques and methodology
- implementing new organizational structures, leading large size teams and transversal processes

□ since May 2013: **Consultant for the Pharmaceutical Industry**

creation of the structure PharmApi (www.pharmapi.fr/en), activity of Advise, Expertise, Training for companies of pharmaceutical industry

□ from January 2005 to April 2013: **Global Functional Head of Analytics, Chemistry and Biotechnology Development, Sanofi**

responsible for Analytical Coordination of Chemistry and Biotech Development, between 10 sites (Aramon, Sisteron, Montpellier, Neuville, Vitry Chem and Bio, Ujpest, Frankfurt Chem and Bio, Brindisi; 200 people), with Analytical Sciences (R&D) and QC/QA Production; also chairperson for Sanofi Pharmacopoeia Committee

□ from October 2003 to December 2004 : **Head of Quality Operations, Process Development, Vitry, Aventis**

responsible for implementing and running the new Quality Operations function in Development, combining in one team Analytical Development, Quality Control and Quality Assurance (40-people team)

□ from April 2001 to September 2003 : **European Functional Head for Analytics, Process Development Chemistry, Aventis Pharma**

responsible for the European Analytics sites (4 sites : Frankfurt, Vitry, Neuville, Romainville ; 75 people), as well as local site head of the Process Development team in Romainville (40 people)

□ from February 1998 to March 2001 : **Head of Analytical Department, Global Pharmaceutical Development, Romainville, Hoechst Marion Roussel**

responsible for leading an 80-people team, remodeling the structure (Project-oriented), streamlining its activity, perimeter and headcount, transitioning in merger phases (HMR, Aventis), while continuing focusing on priority projects and scientific expertise

□ from 1988 to February 1998 : **Head of Group, Analytical Development of New Drug Substances, Romainville, Roussel Uclaf**

responsible for leading a 15-people group (3 laboratories), setting up analytical methods and participating in International Development of NCEs

□ from 1984 to 1988 : **Head of Laboratory, Quality Control of Marketed Drug Substances, Romainville, Roussel Uclaf**

responsible for a 10-people laboratory, releasing pilot and production batches of marketed drug substances

□ from 1981 to 1983 : Teacher in Analytical Chemistry, University of Setif, Algeria
teaching carried out in the frame of Military Service in Cooperation (VSO)

Others: expert at European Pharmacopoeia (EDQM), Group 10B (from January 2008); expert at US Pharmacopoeia, Group Small Molecules 4 (from June 2010)
